"Our results indicate that physical activity, such as walking or jogging, can improve brain health and promote brain health in older people by significantly reducing oxidative stress and inflammation in the brain that would otherwise occur with aging," says the study's senior author, Lee Ann Henderson. She is associate professor of gerontology and physiology in Penn's School of Veterinary Medicine and director of the Brain Aging Research Center. Henderson recently returned from a one-month trip to China, where she participated in a study of more than 1,000 older people. Henderson is sharing her findings with the nation's health and medical community. In the study, funded by the National Institute on Aging, Hendrson and her 09e8f5149f

Are you tired of opening Microsoft Excel documents each and every time you need them? Do you hate having to purchase the full version of the product because of the high costs? Do you want to download and install the MS Office software just so you can open those XLS files? Then, it is time to change and find a better solution. I'm pleased to bring you Free Excel Viewer, a free, open source, standalone utility you can use to open MS Excel (97-2003) files. No need to download or purchase the full version of the MS Office suite to open XLS files. Free Excel Viewer gives you the ability to view MS Excel documents on any computer without any hardware or software installation. It can open and display all MS Excel (97-2003) files, it does not support any other Microsoft file format. Why this project exists? Free Excel Viewer is not designed as a replacement of the Microsoft Office suite. It's just a tool to get round the lack of native Excel support on any platform. It's designed to be a useful utility for the Windows users as an effective Excel viewer and there are many Excel users around the world without any Office software installed on their computers. Free Excel Viewer has been built by an independent developer to fulfill this need. Because of the severe lack of free choice between MS Excel viewers, he decided to provide an Excel viewer for the Windows users. Features 100% Free and Open Source Free Excel Viewer is 100% free and open source. It's free software. You can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation, either version 3 of the License, or (at your option) any later version. The source code is available from our website. You can modify, change it and make it yours, but you have to contribute your improvements back to the community. You may even create your own version of the program and offer it to the Free Software Foundation for their consideration. 100% Portable Free Excel Viewer is 100% portable. This means that you can run it and use it on any Windows system without the need of installation. Free Excel Viewer does not require a reboot to run. You can run it as a portable application and carry it with you in a memory card or USB pen drive, install it
