Rooming 039;it With Key

What's New In Rooming 039;it?

Rooming'it enables you to organize and manage scheduling and fitting. It lets you place participants, appliances and services in each room. On a network, it lets you communicate on meetings and their shedule. Room layout and management Every room can be set with default options or facilities (fresh drinks, paperboard, Internet, translator, etc.) but extras can be added for each booking. This options and facilities are highly configurable and adaptable (type/category/attached icon). A maximum people average per room can be set in order to manage places availability. You can import a principle sketch and a photo for every room. Facilities, options and attendees can be placed using drag and drop of graphical elements in order to set up : ☐ a seating plan ☐ a VIP placement ☐ the furniture and facilities layout Q: Trying to re-size image in JPG, opens new image I am trying to resize an image (which is in a JPG) but it opens a new JPG which I don't want. I don't want it to open a new JPG, I want the previous image to be the resized image. This is how I am trying to do it:

```
System.out.println("Enter image width and height: ");
int width = in.nextInt(); int height = in.nextInt(); //create new image
BufferedImage resizedImage = new BufferedImage(width, height, BufferedImage.TYPE_INT_RGB); //fill the image with the original picture
resizedImage.getGraphics().drawImage(photo.getImage(), 0, 0, photo.getWidth(), photo.getHeight(), null); //copy pixels from original to
```
