3D The 3D Warehouse is a collection of 3D models hosted in a 3D file format. The format is supported by both AutoCAD Serial Key and the standard Windows 3D desktop. The collection of models was originally started by Autodesk and is now developed and managed by the National Building Museum (NBM). Autodesk acquired the 3D Warehouse in 2018. The 3D Warehouse hosts millions of CAD models. It has been shown to be a useful tool for architects, engineers, and designers when comparing and contrasting 3D models. AutoCAD Architecture is an application for architectural design. In 2019, the application was updated to include modular, computer-aided drafting (CAD)

capabilities.
