I want my UIScrollView to shrink when the user minimizes the application and UILabel to keep its size. I tried setting UIScrollView frame to not fit its parent view: self.scrollView.contentSize = CGSizeMake(320, 748); self.scrollView.frame = CGRectMake(0, self.view.frame.size.height-self.scrollView.frame.size.height, self.view.frame.size.width, self.scrollView.frame.size.height); and also self.scrollView.contentSize = CGSizeMake(320, self.view.frame.size.height); But both of them did not work. How can I fix it? Thanks. A: I found my answer. So I had to self.scrollView.contentSize = CGSizeMake(320, self.view.**
